

COORDINATION FOR LAND EXCAVATION & WATER USE

(III Corps and FH Reg 200-1)

NAME, RANK, TITLE, AND ORGANIZATION OF REQUESTER	CONTROL NUMBER
	TELEPHONE
	PROJECTED DATES OF EXCAVATION OR WATER USE

PURPOSE AND DESCRIPTION OF EXCAVATION OR WATER USE (PROJECT NO./CONTRACT NO./TITLE, ETC.)

AREA OF LAND DISTURBANCE = _____ ACRES

DPW Point Of Contact: _____

Note: Permit Expires After 30 Days of Approved Start Date

EXCAVATION

- I propose to dig at the locations depicted in the attached map, sketch, or overlay (For military operations, plot digging locations on transparent overlays that include two grid register marks using standard 1:50,000 topographic maps).
- I understand that the proposed digging or excavation is a requirement within the scope of work to be accomplished. I will not dig or excavate before receiving written approval from the Directorate of Public Works (DPW). I understand my responsibilities and obligations pursuant to safety, property damage, personal injury, and life-threatening hazards associated with digging in the vicinity of underground utilities (including utilities such as electrical cables and pipes containing natural gas, water, sewer, liquefied fuels, and refrigerants). Severe injuries, death, and extensive property damage may occur as a result of digging through underground utilities. I am responsible for maintaining the markings for utilities and for damages caused to persons or property as a result of my fault or negligence. If the exact locations of underground utilities are unknown, I will perform whatever work is necessary to determine exact locations and avoid damaging utilities.
- Unless otherwise permitted, I will not excavate within 50 meters of streams, natural drains, roads, and tank trails. I will not dig or deposit excavated spoil within 10 meters of trees.
- If archaeological resources (arrowheads, charcoal, bones, etc.) are discovered during excavation, I or my representative will notify DPW, 287-1092, and suspend disturbance of the finding until DPW issues guidance.
- Upon completion, I will restore the excavation site including backfilling, reshaping, and seeding to conform to surrounding topography.
- For construction activities that will result in land disturbance (clearing, grading or excavating) of one acre or more, or that are part of a larger common plan of development that will ultimately disturb one or more acres of land, I will comply with the provisions of the TPDES General Permit, TXR150000, to discharge storm water from construction sites, and I will coordinate with DPW-Environmental Division, 287-6499.

WATER USE

- I propose to take surface water from the location depicted in the attached map, sketch, or overlay. Include dates and amounts of proposed water use.
- I understand that the proposed water supply point is a requirement within the scope of work to be accomplished. I will not divert or draw any water before receiving written approval from the Directorate of Public Works (DPW).
- I understand that in addition to this permit, a Temporary Water Use Permit may be required from TCEQ, depending on the proposed water use.

SIGNATURE OF REQUESTER

DATE

REVIEWED OR INSPECTED BY

(All blocks must be signed for Excavation permit. Natural Resources & Environmental Mgmt only for Water Use permit.)

NATURAL RESOURCES	Sprint	ELECTRIC	GAS	RANGE DIVISION
ENVIRONMENTAL MGMT	CULTURAL RESOURCES	DOIM	TV CABLE	WATER & SEWER

Approved under the following conditions

Disapproved for the following reasons

APPROVED BY (Range Division for Training Activities, Range Safety for Live Fire Activities, DPW for all other Activities)
