

G.I. DRAIN SAYS

Keep pollution out of storm drains

Storm drains and roadside ditches lead to our lakes and streams. So, any oil, pet waste, leaves, or dirty water from washing your car or other outside activities that enters a storm drain gets into our lakes and streams.

How can you help?

Simple. Use a broom instead of a hose to clean your driveway. Keep leaves, grass clippings, and trash away from the storm drain, and never dump motor oil, pet waste, or dirty, soapy water down the storm drain.
